

**Thank you so much for choosing Harmon Property Solutions!  
Below is a checklist to prepare your home and ensure your  
photography appointment is as efficient and enjoyable as possible:**

- The driveway and front yard of the home should be clear of any vehicles or objects to provide the best possible images.
- Remove any large objects from the back yard that can be moved easily, like landscape equipment, trash cans, and toys.
- All lights in the home should be turned on, as well as turning off all fans and TV screens in the rooms.
- Open all curtains and blinds to provide the best possible lighting in the home.
- Remove all evidence of pets from the home, including water bowls and beds.

We look forward to capturing your home!
